

## Extension and Revitalization

May 2023

Our Tribal Auxiliaries are planning for a big celebration at the leader of the Auxiliaries teepee. The new leaders of the Tribal Auxiliaries have been chosen and will have a ceremony to install the leaders. The members of the group had voted and believe they have a mix of the old and the new members and ideas. The new leader of their group has asked the Chief of the tribe to come to their teepee and perform their much anticipated ceremony.

To all of the Tribal Auxiliaries, the Great Chief of Kansas and her leaders sent good wishes by smoke signals across our great state for all braves, maidens and squaws who have stepped up to lead their tribe.

The scribbler will then need to prepare the needed names and teepee tent numbers so the information can go to the Great Council.

Excitement is also brewing about the big Tribal Auxiliary meeting led by the Great Chief of Kansas during the next new moon. The leaders and members of the tribes will ride their ponies across Kansas to attend the big pow-wow.

All the Tribal Auxiliaries had sent their writings in the sky for all of the 12 programs that each tribe had worked hard on. Each tribe is hoping to receive a special leather writing with spectacular feathers showing they were the best of the best.

- - - - -

The end of our year is fast approaching and there are still things that need to be done to be a Healthy Auxiliary. New leaders must be installed and chairmen assigned to our programs. The document must be entered into the Malta program or sent to the Department Secretary to be processed. Remember the deadline dates for all report the Installation Report is June 30, 2023.

Auxiliary Roster forms are also included in the April Sunflower Express, and must be completed and sent to Dept Secretary Janice Criswell by May 15, 2023.

Congratulations to all our new and old officers for 2023-2024. We need the blend of ideas from all of our members.

Jeanette Cox  
Dept Chief of Staff  
Extension and Revitalization Chrm.
