

Kansas VFW Auxiliary Hospital Program

2025-2026

The Hospital program encompasses volunteerism by VFW Auxiliary members and support through fundraising and through donations of material goods to uplift and enhance quality of life for hospitalized veterans.

Serving our veterans in a medical facilities has long been a vital part of our organization.

For over 110 years, VFW Auxiliary members have been caring for veterans and volunteering their talents in hospitals nationwide. While some things have changed over the years the mainstay is still there...

to care and comfort those in need... to ensure the best quality of life possible for those who are hospitalized.

Today, VFW Auxiliary members continue to provide needed services, comfort items, quality of life events and more in hospitals, nursing homes, hospice programs, veterans homes and other medical facilities where veterans are served.

It is our duty to be there to care for these men and women who served our country so selflessly.
