

Like seashells, we
are beautiful and
unique with a story
to tell

Youth Activities September 2025

Happy September everyone! Thank you to all that sent me your completed copies of my matching sea shell game. I know it took work looking them up and I certainly learned a lot myself!!

Some of you are off and running already as I have been seeing your reports and I thank you for that! Keep up the good work. I hope you have been planning some Youth Activities by now. I hope you all will consider trying the "Reading Buddy" activity as I think it sounds fun and can impact a child's reading ability. If you make a special connection with a child... perhaps you can continue to read with him/her throughout the year.

Patriotism through Literacy is a great program to read to and/or purchase historical figure books for our youth. You can volunteer at your local library to read to a children's group. You can purchase and donate historical figure books to your local Library or to the school. (There is a list of books on the KS website under Youth Activities, to choose from) How about inviting a local author to do a book talk/signing for the youth at your Post? You could do a Read-a-thon and award prizes at your local Post as well. Anything to get today's youth inspired to READ!!

REMEMBER...all activities you complete and report on are worth a certain number of sea shells that you will be collecting all year and those with the most...will be rewarded...!! Let's all get started collecting your shells!!
